The report came to police court this morning that a desperate character with a knife three feet long was fighting people out in the suburbs of the city. An officer raced after the "bad" man and found him to be a slender young man whose worst feature was an empty stomach. The young tramp had no knife and claimed that he wanted nothing but to get out of town. He was either a good actor or the alarm about him had been a false one. It was decided to feed him and let him go on his way, unless some new complaint is brought against him tomorrow.

Rev. Alfred Brown returned this morning from Sterling where he performed a marriage ceremony yesterday evening. The contracting parties were Mr. William Peck of New York, and Miss Bertha Smyser of Sterling.

## STOCKS AND BONDS

## DEATH APPEARS SUDDENLY AS A FACTOR IN THE DEALINGS.

Samuel L. Post, Jr., an Old and Popular Member, Drops Dead of Heart Disease on the Floor of the Exchange—This Is Interrupted an Upward Movement in Prices—The Volume of Business Also Suffering Largely—Market Watched Narrowly for Profit-Taking Chances—Not Loss on the Day.

New York, June 3.—Prices on the stock exchange were in full swing upward all along the line today when Samuel L. Post, Jr., an old and popular member of the stock exchange, was seized with heart disease and expired almost immediately on the floor. This visitation of death put an immediate stop to the trading in stocks, and it was not resumed for nearly two hours. The volume of business was, in consequence, largely curtailed, many active operators withdrawing from the dealings for the remainder of the day.

The confidence of yesterday with which all offerings were absorbed, even a large amount of stocks which had been bought for London account and were re-sold here, had its effect in London today on the tone of the market there for American securities.

There was active demand and advancing prices as long as the trade continued. London account orders for purchases were made here of various stocks for London account. The London buying was the most potent factor in the market, and, supplemented by the sympathetic advance of a point materially above last night's close in the great majority of stocks, but a rush of realizing sales in the closing transactions wiped out the earlier gains to a great many stocks, and left them a fraction below last night's closing and a few near the low point touched in a realizing movement earlier in the day.

The selling to take profits at the close advanced in Chicago Gas, which had been most aggressively strong all day, rising to the final hour to 87 per cent, the high point of the present upward movement. A fall of over a point at the close induced selling in other stocks. Sugar, also, which was held by the London account, was sold to the tune of nearly 10,000 shares, and, as a result, the price in the final dealing had a strong influence in causing the final decline.

There was a general nervousness in the market, and the professional traders for the moment took the highest profits and several notable profit-taking movements occurred during the day with this in view. The early slump in the Rubber shares, consequent on the reduction of the semi-annual dividend on the preferred stock from 4 to 2 per cent led to one of these movements. Rubber preferred broke 4 1/2 per cent at the opening, and the common and preferred stocks moved rather feverishly upward to 5 1/2 per cent. Tobacco, on the other hand, the improved business by the commission houses and the strength in the specialties all served to give a strong upward movement to the market. The covering movement in the Rubber stock was also a factor in the decline of strength. Therefore, while the profit-taking caused a net loss in a majority of stocks in the list, the decline was small.

The strangers continued in very high request. But the coming next to Sugar in the list, with several large buying orders executed in the stock. But this group also felt the reaction and Rock Island led the next decline in the railways, with a loss of 1/2 per cent.
